

THE MISSOURI ORGANIZATION OF DEFENSE LAWYERS

PRESENTS

“ LEVERAGING SMARTPHONE DATA AS AN EVIDENCE RESOURCE”

MEMBERSHIP WEBINAR

TUESDAY, OCTOBER 29, 2024

1:00 P.M. – 2:00 P.M.

DESCRIPTION:

Smartphone devices have become commonplace in our personal and business lives. Subsequently, smartphones are a principal target of discovery in litigation matters ranging from vehicle accidents to intellectual property theft. The computational power and technology designed into these devices permits them to function as the primary instrument used for communications, navigation, personal entertainment, and data management. This educational course will cover the current status of smartphone technology and function, the concepts of digital evidence, forensic analysis of data collected from smartphones, as well as the strengths and limitations associated with the interpretation of this data. Actual case data samples will be presented and discussed.
